Public Works

Commander John Parizek | Public Works Officer

Radon

- NSA Naples is RPC-1; Radon is a natural gas and exposure over extended periods of time is a health risk
- NAVRAMP requires we test on a recurring basis; In January we received 2025/26 test results
- NAVRAMP has strict Quality Assurance criteria for testing, and our data did not pass the criteria
- Way-Forward: Plan/Budget for new round of testing, Estimated Completion: FY27

Support Site Electrical

- We acknowledge recent power outages and their impact on the community/tenants of Support Site
- We are actively working with the lessor to resolve outages and improve reliability, but system maintenance and repairs require outages, and we commit to improved outage communication

Support Site Construction Updates

- **Progress Update:** Mirabella has completed over 40 backlogged projects in Dec/Jan and is on-track to complete 48 additional projects by April, a major commitment to catching up on facility sustainment.
- **Restroom Renovations!** NEX Complex restrooms March – October (Food Court, Theater, & Dry Cleaner)
- **Permits:** Installation staff engaged Italian political leadership resulting in permit approval for multiple projects. Construction will begin this month on: DoDEA Field Lights; CYP and Tot Lot Shade Structures. Construction will begin on DoDEA Field House once the design is completed and approved.

Construction Updates

- **Pardon our Mess!** Laydown areas across the installation represent progress on numerous projects, including: Capo Exterior Repairs/Painting; FDRMC Renovation; CDC Playground Improvements; Parking Garage Repairs; C4I Renovation/Repairs, and of course, the Bldg. 443 Barracks Demolition
- **Parking:** We are executing Phase 1 of our Capo Parking Improvement plan including: Adding 60 general parking spots across the base and ensuring ADA compliance.
