This is to certify that the above described animal has been examined by me on the date below and was found to be free of any apparent communicable disease. This animal appears healthy for transport, but needs to be maintained at a temperature within its thermal neutral zone. It is recommended that the ambient temperature of this animal's environment be maintained within the specifications of USDA Regulation 9 CFR. 3.18. To the best of my knowledge this animal has not been exposed to rabies and did not originate from a rabies quarantine area.
