

EMS Factsheet

NSA Naples

September 2021

Naval Support Activity (NSA) Naples has implemented an Environmental Management System (EMS) for the installation as required by OPNAVISNT 5090.1D. All personnel at this installation - *civilian, military, and contractors* - are included in the EMS. The following are the program basics that you need to know, and may be asked about during an audit.

What you need to know about the EMS!

What is EMS? EMS stands for Environmental Management System. EMS is a set of processes and procedures that allow an organization to analyze, control, and reduce its impact on the environment. NSA has made a commitment to environmental protection through its EMS and environmental policy statement.

What is the NSA Naples Environmental Policy Statement?

This policy outlines senior leadership's commitment to environmental protection. It can be found on the web at:

https://www.cnic.navy.mil/regions/cnreurafswa/installations/nsa_naples/om/environmental_support.html The main points to remember are:

- **COMPLIANCE** - Our environmental management approach is pro-active and designed to optimize mission readiness through strict compliance with regulations and instructions
- **POLLUTION PREVENTION** - NSA Naples is committed to eliminating pollutant releases and minimizing waste volume
- **CONTINUAL IMPROVEMENT** - Every member of the NSA Naples community is charged with the responsibility to continuously improve operational activities and prevent negative environmental impacts.

What is your role in the EMS?

- Know what EMS is - Environmental Management System
- Know about the NSA Naples Environmental Policy (see above)
- Know NSA Naples's significant environmental aspects:
 - Drinking Water
 - Spill Prevention and Response
 - Wastewater discharge and management
- Know how your job impacts the environment and the significant aspects
- Know how to respond to emergency situations - DIAL 911!!
- Follow the EMS and environmental rules and regulations

Who is your EMS Management Representative?

Eddie Valls, NAS Naples Environmental Program Manager, is your EMS Representative. He can be contacted at joe.valls@eu.navy.mil or 626-6641.
