NSA NAPLES, ITALY HPCON: ALPHA

THE PLAN OF THE WEEK CONTAINS OFFICIAL INFORMATION AND IS NOT TO BE REMOVED FROM THE LIMITS OF NSA NAPLES, ITALY.
 ALL PERSONNEL ARE RESPONSIBLE FOR KNOWLEDGE OF THE CONTENTS OF THE PLAN OF THE WEEK.

MILITARY UNIFORM WEAR PROHIBITED OFF-BASE!

NAVADMIN 014/26- PERSONAL FOR COMMANDERS, COMMANDING OFFICERS, OFFICERS-IN-CHARGE, ON EMBRACING ADMIRAL RICKOVER'S PRINCIPLES – TRAINING NOTE #1 OWNERSHIP

- Provides CNO-directed leadership emphasis on taking responsibility for your unit, mission, people, and outcomes – a key leadership expectation articulated fleet-wide. Ownership is not positional you do not need authority to act. Leaders are expected to identify problems, take responsibility, and drive solutions. Passing blame, waiting for direction, or tolerating poor standards is a failure of leadership. True leadership means results, not explanations.
- If you see a problem, you own it!
- Ownership is leadership in action!
- Standards are everyone's responsibility!
- Accountability cannot be delegated!
- Leaders fix problems - they don't pass them!

DRMO NOTE:

As a reminder, when dumping items, ensure you are utilizing authorized locations and services. There have been reports of personnel dumping items in a "No Dumping" section at the C4I building as well as other locations around the base.

NOTES:

- **URGENT SAFETY NOTICE: IMMEDIATE ACTIONS REQUIRED FOR ALL CONFINED SPACE OPERATIONS:** Within the last quarter, NSA Naples has experienced two significant mishaps, both resulting from a failure to follow established confined space entry procedures. Incident 1: A contract employee performing utility work within a false floor was overcome by noxious gases, requiring an emergency rescue and extraction. Incident 2: An employee fell through an unprotected opening into a confined space after a glass utility panel was removed for cleaning. This incident not only caused injury but also resulted in damage to cultural artifacts and created a significant, unabated fall hazard.
- **Mandatory Procedures for All Confined Space Entries:** Per NAVSUPACTNAPLESINST 5100.13B, all confined spaces on NSA Naples installations are considered PERMIT-REQUIRED. There are no exceptions. All leaders, supervisors, and contracting officer representatives (CORs) shall immediately review their operations for any planned or ongoing work involving confined spaces. You MUST contact the NSA Naples Safety Office at M-NA-NSA-SAFETY@us.navy.mil prior to ANY entry into a confined space. This is not optional. Failure to notify constitutes a direct violation of command safety policy and places lives at risk. For any questions regarding this message or confined space procedures, please contact the Confined Space Program Manager, Mr. Paolo D'Alterio at 626-5105, paolo.dalterio.ln@us.navy.mil or the NSA Naples Safety Office immediately.

ALCOHOL AWARENESS:

- Alcohol awareness is not a poster on a wall. It's a readiness issue, a safety issue, and a leadership issue. Every Alcohol-Related Incident (ARI) is preventable, and every preventable incident steals time, trust, and talent from this command. As of this week, we are [] days since our last ARI. Let's keep that number climbing for the right reasons. If you choose to drink, do it responsibly: have a plan, protect your shipmates, and do not drink and drive. Look out for the people who look "fine" but aren't. Real leadership is what you do before something goes wrong. Also, keep your decision-making clean when you're tired. Long days and watch rotations push people toward "quick fixes." OPNAV N173 highlights that energy drinks are widely used across the Fleet, and studies show they can raise blood pressure and impact the heart in ways not seen with coffee alone. Pairing alcohol, sleep disruption, and heavy stimulant use is a bad trade for your health and recovery. Read labels, know what you're putting in your body, and fuel smarter. For supplements and "legal" products: don't play games with your career. ALNAV 003/26 makes it clear: Sailors and Marines are prohibited from the use, possession, distribution, and/or manufacture of any product containing or derived from kratom, including mitragynine or 7-hydroxymitragynine, whether natural, semi-synthetic, or synthetic. Violations can trigger UCMJ action under Article 92. If you need help, get it early. Talk to your Chain of Command, your DAPA, or medical. Asking for support is a sign of strength, not weakness. Stay ready. Stay safe. Take care of each other.

NSA NAPLES COLOR GUARD:

- NSA Naples Command Color Guard is looking for more sailors to join our team! If your sailors are interested, but have never done Color Guard before, please let me them know that we are able to train them in all aspects of the team!
- To request Color Guard for events, we ask to please include the following in your email: POC/EMAIL/LOCATION/TIME/UNIFORM/REHEARSAL TIME AND DATE/ WILL TRANSPORTATION BE PROVIDED/ AND ATTACH THE 5050/5060 FOR THE EVENT AS SOON AS POSSIBLE.
- Please reach out to nsanaplescolorguard@us.navy.mil for events and Andrew.n.marroquin.mil@us.navy.mil for questions and more information.
