# TRAFFIC ACCIDENTS

- *Be aware of your vehicle's position relative to the flow of traffic – exit from the vehicle only when safe.*

*Position yourself behind the traffic accident, never in the front.*

- *Turn on your hazard lights.*
- *Put on your reflective vest (better to have multiple vest in the vehicle) if the IT authorities are not going to respond, vehicles can be moved to a safe spot, make sure to take plenty of pictures before you move the vehicles.*
- *Please utilize Road Hazard Warning Triangle*
- *Call the NON Emergency Dispatch line at +39 081-568-5638 – +39 081 568-5639*
- *Be respectful to host nation response personnel, they are there to assist you.*
- *Be prepared to exchange insurance & POV information with other drivers.*
- *You are allowed to take pictures of the traffic accident scene.*

# TRAFFIC ACCIDENT WITH INJURIES

- *Contact Emergency Management +39 081 568 4911*
- *If you are injured in the course of a traffic accident, you will be transported to an Italian hospital by Ambulance.*
- *If you refuse medical treatment on the scene, you will be expected to sign a “Medical Attention Denial” form/waiver. Otherwise, you will be treated.*
- *Depending upon the severity of injuries and/or vehicle damage, your POV may be seized for evidence. Upon your arrival at the IT medical facility IT authorities can request for you to provide a blood/urine sample or request for you to submit to a breathalyzer test on the scene of the traffic accident.*
- *If you refuse to be tested, your DL will be seized and suspended on the spot, your vehicle will be placed under indefinite seizure, meaning, your vehicle will not be returned back to you, you will also be charged with violating art. 186-bis/driving under the influence*

# **AUTO CRIME PREVENTION**

*If you are lucky enough to have a garage, **USE IT.**  
**ALWAYS** secure your vehicle doors/windows*

*Always carry a spare set of house and car keys on your person or at a location that you can easily access, like your office, or a trustworthy neighbor.*

*Never **EVER** leave your house keys in the car*

*Remove items that could indicate that you're an American or that you belong to a "foreign" community.*

***USE YOUR GARAGE***

## SWINDLES AND EXTORSIONS WHILE ON THE ROAD

*There is a new trend out there. As you are driving minding your own business, someone will lead you to believe that you have just damaged their vehicle.*

*They will honk @ you, signal you with their headlights, motion you to pull over, sometime they will aggressively pull in front of your vehicle in the attempt to make you pull over. If you are 110% sure that you did NOT touch their vehicle, just keep on driving. Contact Emergency Management, if possible, take a picture of their vehicle, license plate is a MUST HAVE. They will try their best to make you pull over a attempt to extort money from you.*

*The majority of the times they will have a female and a child in their vehicle to lower your level of alertness.*

**DON'T YOU FALL FOR IT**

# RESIDENTIAL CRIME PREVENTION

*Your crime prevention plan begins NOW as you are house hunting.*

*Be smart when choosing a home and ALWAYS keep security in mind.*

*Make sure that you understand and are able to operate the house alarm*

*Alarm contact sensors for doors and windows, as well as motion detectors are required for off-base residences.*

*Prior to the lease signing is when you have the most leverage with your potential land lord. If you want to upgrade any of the security features of your residence, now is the time to ask*

*Think like a crook, how easy would it be for you to get in your own house?*

*All residential alarms are composed of an internal/external siren and a main internal unit; alarm system with a phone dialer programmed to dial out for help are a must have. Alarm system may also be monitored by an ADT type company that will actually respond to the residence when the alarm is triggered off by an intruder.*

## RESIDENTIAL CRIME PREVENTION II

*Do a complete inventory of your belongings, keep the inventory in a safe place. Serial numbers and photos are of paramount importance, do not throw away your HHG list.*

*Recovery will not be possible if you can not identify your stolen property.*

*Get to know your neighbors, they are your secondary line of defense. Use your exterior lighting. Motion sensor activated lights are great. Don't place keys/wallets/purses/backpacks by the front door.*

**ACTIVATE YOUR ALARM AT ALL TIMES**

## RESIDENTIAL CRIME PREVENTION III

- ***ALWAYS*** lock your doors and windows
- *Test your alarm system at least once a month; request for your landlord to replace the batteries prior to moving into your new residence*
- *Ensure your alarm system allows for your pets to move freely throughout the residence. **PET FRIENDLY MOTION SENSORS**, ask for it*
- *Do not get comfortable with not having the alarm on*
- **ACTIVATE YOUR ALARM AT ALL TIMES**

# HONEY, DID YOU HEAR THAT?

- *If someone breaks in your house... Turn the lights on, make noise.*
- *DO NOT get in a physical confrontation, unless physically assaulted by the intruder.*
- *Defense must always be equal to the offense.*
- *YOU ARE NOT ALLOWED TO OWN NOR PURCHASE A GUN.*
- *Your alarm, door and windows, are your first line of defense, put'em to work...TURN YOUR ALARM ON @ NIGHT*
- *Make sure that your dog is properly registered/chipped on base and in town.*
- *YES, you are allowed to purchase pepper spray on the local economy. Do not have your folks or Mr. Amazon send you pepper spray in the mail. It MUST be CE certified*
