

Access to Naval Support Activity Souda Bay

Naval Support Activity Souda Bay is a controlled-access installation located within the gates of a Greek Air Force Base. As such, entry to the installation and its facilities is restricted to permanent party personnel; access is only granted to visitors by prior arrangement and for specific appointments.

In addition, in order to comply with the bilateral agreements between the United States and Greece, access to facilities such as the Navy Exchange and the Navy Exchange Mart is controlled due to the restriction on the sale of tax-free goods to personnel not permanently assigned to the installation or here on temporary duty orders.

Please review the table below to understand your status, what facilities are available to you, and contact information to make an appointment and arrange access to the installation.

If you are a U.S. military retiree and a permanent resident of Greece seeking logistics support, contact the Legal Office at 266-1203 or 28210-21203.

Permanent Party personnel assigned to NSA Souda Bay should contact the Visitor Control Center at 266-1189 or 28210-21189 for information on access for their non-command sponsored dependents.
